I actually read this yesterday. 😊 I'm free after 11:30 if you just want somebody to talk things through.

Morning (I trust you are reading this in the AM and not today, Sunday)

So, I wanted to let you know, Based upon Mindy's comments and reordering of the paper, I had to rewrite quite a bit of it. I suspect they are going to have me present it – not really comfortable as I don't understand some of what was written or why. So I've rewritten for me to present. Thought you'd want to know.

Also, I have lifted some of the citations you have below and inserted them in the paper as you suggested. I think the rewrite addresses all of your comments with the exception of:

Ex. 5 Deliberative Process (DP)

Thoughts? I'll send you my rewrite, but at this point I think I'm wrapping myself up in knots trying to sort it all out. - Kathy

Hi Kathy & Stephanie:

Applying Murphy's Law, I started reviewing the materials for the 2nd options selection so that we can pre-brief Cathy Libertz. I went into the subfolder for Mindy's review, figuring those were the papers that are closest to "final." After going over the ESA materials multiple times, I cannot imagine how we are going brief Cathy using those without getting her very frustrated. In a perfect world, I would recommend

Ex. 5 Deliberative Process (DP)

Ex. 5 Deliberative Process (DP)

I am happy

to help re-draft if that would be useful.

Apologies, as I am aware that this is something of a late hit. But as I sit and try to figure out how we would brief Cathy using these materials, I felt it important to alert you to these potential issues.

Be well and safe in these times.
